ARGENTINEAN ARTIST TO RELEASE A SERIES OF SMALL PAINTINGS

Florencia Castaldo, an Argentinean artist residing in Houston, will release a series of 24 paintings sized 10x10 inches on wood panels, each inspired by the theme of dreams.

These paintings offer the chance to explore the unconscious world through evocative images. From minimal expressions to images crowded with forms, lines, and patterns, the artist exposes a personal vision of dreams where memories and personal stories are combined. This series of paintings is about self-reflection and introspection.

"Dreams give us a gateway into a whole different world of ideas and images. I see them as a way to process and relive emotions that we maybe cannot perceive in the conscious world. Through dreams, we may discover what is significant to us, what matters, or what we simply miss", said the artist.

Florencia Castaldo is known for her abstract work full of layers, mark-making, and texture. She celebrates contact with nature, which also offers a great source of inspiration for her paintings. This year, she was awarded first place and an honorable mention in the acrylic painting category at the Spring Juried Show organized by the Conroe Art League, and also was a winner in both painting and overall categories at the art competition "Patterns, textures and forms".

Florencia Castaldo's new series "IT'S ALL ABOUT DREAMS" will be released on Wednesday, December 1st, and will be accessible online through the artist website www.florenciacastaldo.com and Instagram [@florencia.castaldo](https://www.instagram.com/florencia.castaldo).
